The purpose of this letter is an appeal that Marquette Academy be granted a waiver of a deadline. Marquette Academy is a new entity (school) with a new principal, vice-principal, business manager, and technology coordinator. The new entity is a result of a merger of three schools with no retention of core administration. The technology coordinator missed filing the 470 form date of February 24, 2011 by 1 day because he was out sick and mismarked his calendar as to the due date. The 28 day requirement caused the 471 form to be late as a result. Also, after waiting the 28 days, we had no viable bids for the above services. After which we realized we needed to update all our current contracts to meet the date requirements. This is when I began to assist the technology coordinator. All the above companies were willing to abandon the existing contracts and update or create new contracts to go through the FY 2011. These companies had extraordinary e-rate people helping us with this process, which we completed during this two week period. As a new school which was faced with the challenges of a merger and all new core administration, Marquette Academy asks that you grant our appeal.

Sincerely,

Terry G. Wisniewski

Terry Wisniewski
Vice-Principal
Marquette Academy
